

Oral Immunology and Infectious Disease

The Department of Oral Immunology and Infectious Diseases at the University of Louisville School of Dentistry is recruiting an investigator with expertise in microbiome research, innate immunity and/or microbial pathogenesis for a tenure/tenure track position at the level of Assistant, Associate or Full Professor. The successful candidate will be expected to have and maintain a funded research program and will contribute to a vibrant, well supported, multidisciplinary research department (<http://louisville.edu/dentistry/departments/oralhealth>).

Qualified candidates must possess a Ph.D. in Microbiology, Immunology, Microbial Pathogenesis or related disciplines.

This search will begin immediately and will end when the position is filled. Qualified applicants must apply online to **Job #35059** at www.louisville.edu/jobs, and should submit a letter of interest, curriculum vitae and three names of professional references to:

Dr. Richard Lamont

Professor and Chair, Oral Immunology and Infectious Diseases

School of Dentistry

University of Louisville

501 S. Preston Street Louisville, KY 40492

(or email to: richard.lamont@louisville.edu)

Equal Employment Opportunity
