Associate/Assistant Professor in Data Sciences or Computer Science

Putrajaya, Malaysia

Ref: IC25030

Location: Based at Malaysia Campus

Heriot-Watt University Malaysia is seeking to recruit enthusiastic academics with experience of teaching Computer Science, ideally with a background in Data Sciences. Successful candidates will be additionally expected to build research over time.

The School of Mathematical and Computer Sciences at Heriot-Watt University Malaysia is seeking to launch a new degree in Data Sciences in September 2020. A key remit of a successful candidate will be developing new course materials on software engineering suitable for the Malaysia campus, while developing strong links to colleagues at the Scottish and Dubai campuses to deliver high quality learning and teaching, to contribute to the continued development of the programmes offered to students, and to develop research in association with the Academic Schools in the UK.

Postholders will be expected to have a broad knowledge of a range of topics within the sphere of their chosen discipline, and an interest in research activities. The post holder will join the School of Mathematical and Computer Sciences at HWUM and will be a key member of the team delivering our programmes.

The role will be based at the University's campus in Putrajaya, the administrative capital of Malaysia. Programmes will be delivered in English and so fluency in English is essential. An induction programme will be delivered to all new academic staff in August 2020 on Heriot-Watt's standards and values, and to give practical experience on preparation, delivery and assessment of teaching.
