POSITION ANNOUNCEMENT
Research Associate (Biostatistician)

We have an immediate opening for a 12-month Research Associate position in the Department of Epidemiology and Biostatistics within the School of Public Health- Bloomington at Indiana University.

The Research Associate will provide biostatistical support services including biostatistical consulting to IUB faculty, staff and students; provide data analysis, interpret the analysis results, write analytical portions of manuscripts based on methods and results of analysis, and address manuscript revisions based on reviewer comments. Develop, maintain and modify syntax code for in-house use; under supervision of senior staff and faculty, collaborate with investigators in grant development including statistical design of studies, sample size and power calculations, and preparation of analytical portions of grant proposals.

Candidates must hold an M.S. or Ph.D. in biostatistics, statistics, or related discipline. Preferred skills include proficiency in computing, knowledge of statistical packages such as SAS, SPSS, STATA, R, excellent communication, attention to detail and organization, knowledge of scientific research design and randomized controlled trials, knowledge of data file handling techniques, and professional writing skills.

The position will be a one-year renewable contract dependent on funding.

The anticipated start date for this appointment is Jan 6, 2020. For full consideration, apply by November 15, 2019. Applications must include: A brief statement of professional objectives, complete curriculum vitae or resume, and a list of at least three references. Interested candidates should review the application requirements and submit their application at:
https://indiana.peopleadmin.com

Questions regarding the position or application process can be directed to: Stephanie Dickinson at sd3@indiana.edu or via postal mail at the following address:
