Fascinated by the future and captivated by technology?

Smart, driven and want to make a difference in the world?

You’ll fit right in.

Join a diverse team at Visa, where your individuality fits right in. We can provide the opportunity to shape the payments experience globally. Together, let’s transform the way the world pays.

Think you know us?

Our mission is to connect the world through the most innovative, reliable and secure digital payment network that enables individuals, businesses and economies to thrive.

Individuality fuels our brand and our global team – we’re proud that we are a talented team of 15,000 individuals with unique backgrounds, perspectives and experiences. Therefore, we understand that you are much more than your day job. We encourage quality of life outside of the office, whether it’s taking advantage of agile work schedules or our wellness programs, Visa respects and encourages meaningful work/life balance for everyone.

So, if you’re not satisfied with the status quo, we can satisfy your desire to explore new territory, giving you the runway to really make an impact, whilst connecting you with teams around the world in a truly inclusive culture that celebrates our uniqueness.

If you think you could support Visa as an **Interchange Data Analyst**, we want to hear from you – together, let’s make Visa a great place to work.

**Job Description**

**What’s it all about?**

The Interchange Data Analyst role is a key member of the Payment Economics team, responsible for interchange and inter-client fees business development, operational management and compliance across Europe.
As a data analyst, you will work with colleagues to extract, analyse and perform various data analyses and modelling tasks which will be beneficial to our teams and various stakeholders.

What we expect of you, day to day.

- Work with the Regulatory Reporting & Compliance Senior Manager to execute on analytics plans and deliverables
- Support the development and implementation of BI / reporting and modelling solutions related to interchange data
- Proficiently execute simple to complex data manipulation and modelling tasks (mostly Excel based) supporting the development and compliance functions
- Perform quality assurance on data and deliverables
- Support the production and provision of MI to internal and external stakeholders
- Support the management of interchange / inter-client fee data and MI, in accordance with established policies and procedures
- Support re-balances/retrospective manual adjustments for relevant fees

Qualifications

What we’re after...

- Graduate/Post Graduate in Quantitative field such as Statistics, Mathematics, Computer Science, Economics or equivalent experience
- Advanced Excel skills required – can demonstrate efficient use of VBA, application of mathematical concepts and programming to improve efficiency of modelling and reporting
- Strong SQL skills for data processing and knowledge of R is essential. Familiarity with business intelligence tools like Tableau, Power BI and MicroStrategy is an advantage
- Analytics experience in applying statistical solutions to solving business problems is desirable
- Hands on experience / comfort in processing extremely large data sets.
- Team oriented, collaborative, diplomatic and flexible style, with the ability to tailor data driven results to various audience levels
- Able to work unsupervised and efficiently whilst designing, implementing and documenting own processes to ensure high quality work
- Detailed oriented, expected to ensure highest level of quality / rigor in reports & data analysis
- Exhibit intellectual curiosity and strive to continually learn
- Understanding of Payments and Banking Industry is an advantage but not required
Additional Information

Universal acceptance for everyone, everywhere, is not only our brand promise, it’s the foundation of our company culture. We foster a feeling of connectedness in the workplace, support diversity of thought, culture and background, fight for important initiatives like Equal Pay and actively work to eliminate unconscious biases that hold us all back.

By leveraging the diverse backgrounds and perspectives of our worldwide teams, Visa is a better place to work and a better business partner to our clients.
